

# File Index

## Jupyter Notebooks:

| File Name                                     | Content            |
|-----------------------------------------------|--------------------|
| Team10_PythonWranglers_1.DataCleaning         | Category 1 Queries |
| Team10_PythonWranglers_2.DescriptiveAnalysis  | Category 2 Queries |
| Team10_PythonWranglers_3.PrescriptiveAnalysis | Category 3 Queries |

## Source Data:

| File path                                                                | Content                                                                                              |
|--------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------|
| SourceData\PatientData\HUPA*.csv                                         | Contains 25 CSV files. Used as raw data in Data Cleaning file.                                       |
| SourceData\DemoGraphicData\T1DM_patient_sleep_demographics_with_race.csv | Used as raw data in Data Cleaning file.                                                              |
| SourceData\Processed\Team10_PythonWranglers_CleanedData.xlsx             | File containing cleaned and processed data. Used as Input for Descriptive and Prescriptive analysis. |
